## BEVERAGES & SNACKS

There is no drinkable water at the base camp or on the river. Please pack at least 2 litres of bottled water / non-alcoholic beverages per day. It is advised that you freeze some of your water, so that it will be defrosted but still cold towards the end of your trip.

Snacks for the river: dried fruit, biltong, dry sausage, peanuts, bars of chocolate, super C and jelly babies.

## OPTIONAL EXTRAS FOR FUN

Fishing rod, games, cards, frisbee, bats and balls, cricket bat.

# HOW IT WORKS

On arrival, you will be allocated with a barrel (approx. 60 litres) for your clothes and cooler box (capacity of 52 cans). The barrel and cooler box is shared by two people.

### How to pack your shared barrel

You have dry clothes and wet clothes. The dry clothes are for the nights and they go into your barrel.

First, you line the barrel with a garbage bag for waterproofing. Then you add both your sleeping bags (loose) into the bottom and above this your dry clothes. Normally, you wear the same clothes every night, changing only your "undies".

The wet clothes are to raft and swim with. This will almost dry overnight and be ready to wear the next day. **DO NOT BRING TOO MANY CLOTHES!** You only need clean clothes to drive home. These you leave at base camp.

Please ensure that you have a minimum 2 litres of beverages per day. You can keep a 5-litre can of water outside your cooler box.

Then you have a 1-litre bottle inside your cooler to be refilled with the water from the 5-litre can.

Please note that ice, is a commodity on the river. The colder your drinks are with arrival, the longer your drinks will stay cold. We suggest that you freeze some of your drinks before you arrive at camp. Then place your frozen drinks into the cooler box. (This is often very difficult for people coming from far.)
